

SAMPLE / DEMONSTRATION ONLY

# OEM Sample Approval Form

Abrasive sample identity, test conditions and revision control

**PUBLIC SAMPLE NOTICE**

Product details and test entries are illustrative. This form does not approve a real sample, authorize a brand claim or establish production acceptance.

**PROGRAM**

Example custom sanding belt

**SAMPLE ID**

DEMO-S1 / Revision A

**DECISION STATUS**

NOT APPROVED

**SAMPLE IDENTITY**

Example entries make the record structure visible

| CONTROL POINT         | STATUS          | SAMPLE ENTRY                                                            |
|-----------------------|-----------------|-------------------------------------------------------------------------|
| Format and size       | SUPPLIER-STATED | Example only: 50 x 2000 mm sanding belt.                                |
| Abrasive construction | SUPPLIER-STATED | Example zirconia option; backing, bond and coating remain to be frozen. |
| Joint and direction   | OPEN            | Joint type, overlap direction and marking need confirmation.            |
| Packaging identity    | OPEN            | Artwork, pack count, label and market language are not approved.        |
| Reference sample      | OPEN            | Physical retention sample and dated images are not assigned.            |

**TEST CONDITION RULE**

Record the machine, workpiece, operator method, speed, pressure, contact wheel or platen, comparison product and acceptance criteria before interpreting performance.

SAMPLE / DEMONSTRATION ONLY

# OEM Sample Approval Form

Buyer decision, revisions and production-reference handoff

**PUBLIC SAMPLE NOTICE**

Product details and test entries are illustrative. This form does not approve a real sample, authorize a brand claim or establish production acceptance.

**EVALUATION POINTS**

| CONTROL POINT        | STATUS | SAMPLE ENTRY                                                                |
|----------------------|--------|-----------------------------------------------------------------------------|
| Cut and removal      | OPEN   | Buyer result and comparison basis to be entered.                            |
| Finish quality       | OPEN   | Target surface and acceptable variation to be entered.                      |
| Life and consistency | OPEN   | Test duration, sample count and failure mode to be recorded.                |
| Fit and handling     | OPEN   | Machine fit, tracking, joint behavior and operator feedback to be recorded. |

**APPROVAL HANDOFF**

| DECISION                  | OWNER            | HANDOFF RECORD                              |
|---------------------------|------------------|---------------------------------------------|
| Technical sample decision | Buyer            | Approve, revise or reject with dated reason |
| Revision issue            | RISVO + supplier | New sample ID and change summary            |
| Packaging approval        | Buyer            | Approved artwork and physical standard      |
| Production freeze         | Named seller     | Order record linked to approved sample      |

**SAMPLE DECISION STATUS****NOT APPROVED**

Example disposition: retain Revision A as a test sample only. No production reference exists until the buyer signs the decision.
